Capnor Weasel BidCo

Interim Report January – December 2019

Interim report for the fourth quarter and first twelve months of 2019

Fourth quarter highlights

- Revenues increased by 27% to MEUR 21.8 (17.1)
- The Q4 gross margin increased to 57% (54%)
- Adjusted EBITDA increased by 49% to MEUR 5.8 (3.9)

Significant events during the quarter

- Successful launch of the new product line, iLOQ S5, in the Nordic Countries
- Successful launch of the iLOQ S50 with iOS compatibility
- iLOQ Group acquired by Nordic Capital Fund IX

	2019		Change	2019	2018	Change	2018
The Group, in EUR thousands	Oct - Dec	Oct - Dec	in %	Jan- Dec	Jan- Sep	in %	Jan- Dec

Gross margin	57%	54%		55%	54%		54%
Adjusted EBITDA*	5,775	3,876	49%	9,764	10,322	-5%	10,322
Adjusted EBITDA margin*	26%	23%		16%	21%		21%
Adjusted Operational Cash Flow*	3,081	1,555	98%	4,048	4,335	-7%	4,335
Adjusted Operational Cash Flow%**	53%	40%		41%	42%		42%

^{*} Adjusted EBITDA excludes the impact from transaction related costs in connection with Nordic Capital Fund IX's acquisition of iLOQ.

Management overview of Q4

In Q4, iLOQ launched its new iLOQ S5 product line in the Nordics. The launch was a success and received a very positive market response. With the next generation product lines, iLOQ S50 and iLOQ S5, now being launched, management believes that iLOQ is well positioned to further grow its leadership within electromechanical locking systems.

2019 Q4 saw the growth returning to targeted levels after the slightly slower growth rate in Q3. The launch of the new product line, iLOQ S5, in the Nordic countries contributed to the revenue growth. The first major deliveries of the iLOQ S50 product line also contributed positively to the growth in Q4.

Continued work on the dual sourcing strategy and focus on procurement savings resulted in improved margins.

In October, Nordic Capital Fund IX announced its acquisition of iLOQ through Capnor Weasel BidCo. The transaction was closed in December following approval by the relevant competition authorities.

In connection with the transaction, Capnor Weasel BidCo successfully issued Senior Secured Notes of MEUR 55.0.

^{**} Adjusted Operational cash flow excludes the impact from transaction related costs in connection with Nordic Capital Fund IX's acquisition of iLOQ.

Fourth quarter 2019

Revenue increased by 27%, driven by strong sales in the Nordics, the launch of the new product line, S5, and the iLOQ S50 product line, which is continuing to gain momentum in critical infrastructure segments.

Gross profit amounted to MEUR 12.4 (9.2), an increase by 35% compared to the same period last year. The gross margin amounted to 57% (54%). The 3p.p. improvement, compared to the same period last year, was due to productivity improvements, ramp up of our dual sourcing strategy and improved margin of the new iLOQ S5 product line.

Adjusted OPEX grew by 25% in Q4 y-o-y to MEUR 6.7 (5.3). The OPEX increase was mainly driven by increased sales and marketing expenses related to the iLOQ S5 launch, with some operating leverage achieved in the fixed cost base. Adjusted OPEX excluded MEUR +0.5 of one-off related transaction costs in Q4 (-0.3).

Adjusted EBITDA (excluding one-off items) amounted to MEUR 5.8, corresponding to a 26% EBITDA margin, an increase of 49% compared to the same period last year.

Adjusted Operational cash flow was MEUR 3.1 (1.6). The higher improvement in Operational cash flow compared to EBITDA was mainly explained by working capital improvements

January – December 2019

Revenue increased by 22%, driven by strong growth in the Nordics on the back of the S5 launch, and the first significant sales of the iLOQ S50 product line.

Gross profit amounted to MEUR 33.6 (27.1), an increase of 24% compared to last year. The gross margin amounted to 55% (54%), 1p.p. higher than last year due to the yearly price increase in the Nordic countries, productivity improvements, ramp up of our dual sourcing strategy and improved margin of the new product line, iLOQ S5, in Q4, partly offset by negative product mix effects.

Adjusted OPEX grew by 41% to MEUR 23.8 (16.8). The OPEX increase was mainly driven by increased investments within the sales and marketing and R&D organisations. Adjusted OPEX excluded MEUR -0.1 of one-off related transaction costs (-0.8).

Adjusted EBITDA (excluding one-off items) amounted to MEUR 9.8, a decrease of -5% compared to 2018. The resulting EBITDA margin for the full year was 16% (21%).

Adjusted Operational cash flow was MEUR 4.0 (4.3). The decrease was mainly explained by increased CAPEX investments compared to 2018

Declaration of the board

We confirm that, to the best of our knowledge, the condensed financial statements for the financial year 2019, has been prepared in accordance with Finnish Accounting Standards (FAS), and give a true and fair view of the Group's assets, liabilities, financial position and results of operations for the period. We also confirm, to the best of our knowledge, that the management overview includes a fair review of important events that have occurred during the financial year 2019.

Espoo February 24, 2020
